

# Resolve Internal Fire- Liquid and Capsules

A Natural COX-2 Inhibiting Anti-Inflammatory Formula

See below the dramatic results of before and after using Resolve Internal Fire for two weeks. This is how we can affect changes in inflammation related thermal patterns.

## 1. Sheng Jiang (fresh ginger) (acidic, warm)

As an anti-inflammatory, it is a natural Cox-2 enzyme inhibitor. It regulates the production of compounds that dilate the arteries. It restores healthy platelet function (important to prevent blood clots). Balances production of inflammatory prostaglandins.

## 2. Jiang Huang (turmeric) (acidic, bitter, warm)

As an anti-inflammatory, it is a natural Cox-2 enzyme inhibitor. It inhibits angiogenesis and modulates nitric oxide.

## 3. Hu Zhang (bitter, cold)

As an anti-inflammatory, it is a natural Cox-2 enzyme inhibitor. It stimulates free radical scavengers. It inhibits activity of Cox-2 in human breast cancer cells & malignant oral tissue

## 4. Nu Zhen Zi (sweet, bitter, cool)

As an anti-inflammatory, is associated with a reduction in swelling, inflammation and permeability of the blood vessels. It is also useful in the reduction of cholesterol and triglyceride levels.

## 5. Jin Yin Hua (Honeysuckle Flower) (sweet, cold)

Anti-inflammatory that also decreases absorption of cholesterol. Clears heat in the throat.

## 6. Dang Gui (sweet, acidic, warm)

Extract of Dang Gui has analgesic and anti-inflammatory effects similar to acetylsalicylic acid (aspirin), and is 1.1 times stronger. It decreases vascular permeability to reduce inflammation

## 7. Gan Cao – (Licorice Root) (sweet, neutral)

The mechanism of the anti-inflammatory action includes decreased permeability of the blood vessels. It also harmonizes the effects of cold and hot herbs.

## 8. Chen Pi – (Citrus Peel) (acidic, bitter, warm)

As an anti-inflammatory it has shown the ability to decrease permeability of the blood vessels. It also dilates the coronary artery.

**Green Tea** (not in the formula) **Green Tea will increase eight-fold the benefits of Ginger and Turmeric (#1 & 2 above)**

**Directions for use:**

**Liquid formula** - 3 **droppers-full** or ½ teaspoon in water or green tea 2-3 X day  
4oz contains 50 -1/2 tsp doses.

**Capsules** - 3 caps 2 or 3 X day on empty stomach (100 count - about 2 weeks supply) **Green tea** offers 3 highly significant features: 1) Contains 4 specific COX-2 anti-inflammatories (salicylic acid, polyphenols, flavan3-ol derivatives and apigenin). 2) Contains 51 anti-inflammatory compounds, offering relief from several directions. 3) Has 15 anti-ulcer phytonutrients. Therefore, green tea contains compounds that are rich in anti-inflammatory factors

Retail Price: \$28.50 per bottle.

**IAMT Member Wholesale Pricing:**

Capsules or Liquid:

1 Case of 12 bottles = \$212 (includes shipping in the USA.)

***\$17.66 per bottle wholesale***

**Half Case of 6 bottles for \$112**
